

Communicative Life Cycle Expert CSR Product Department, H&M

We are looking for a new colleague to focus on life cycle analysis, could it be you?

In this role you are responsible for life cycle inventorying and life cycle analysis of products and systems at H&M, which means:

- Responsible for developing a life cycle assessment (LCA)-based support tool for the buying organisation / production organisation
- Being active in internal and external working groups in the area of garments and life cycle thinking
- Functioning as LCA expert for internal questions and support

The location for this role is Stockholm. Good skills English is required, Swedish is preferred as well.

Our vision:

To enable a better choice to more people by working for resource smartness and a better life for those we touch.

The CSR Product team is a part of the CSR department that works towards below vision with Product and process:

- Leading the work with setting a shared vision, strategy, goals and policies.
- Being responsible for coordinating activities for events and incidents that have a global effect on H&M.
- Providing expertise to support and advise business functions (primarily Buying office and Production).
- Coordinating business functions and H&M Group goals.
- Quality assuring and securing methods and tools for data collection on our performance.
- Evaluating H&M group performance.
- Actively contributing to visualise our work.

We are looking for you who:

- Have a solid experience in LCI and LCA.
- Are enthusiastic and driven.
- Have the ability to communicate Life cycle related information and methods to colleagues with other competences.
- Are organized.
- Are a team player.
- French knowledge is a plus.
- Knowledge from textiles/garments industry is a plus.
