

InLCA, Boston, USA, October 2nd 2009

Thoughts on capacity building

David W. Pennington
European Commission

Application-dependent conventions for coherence (assessments, methods, data, formats, ...)

Robust, appropriate, compatible data for different product groups

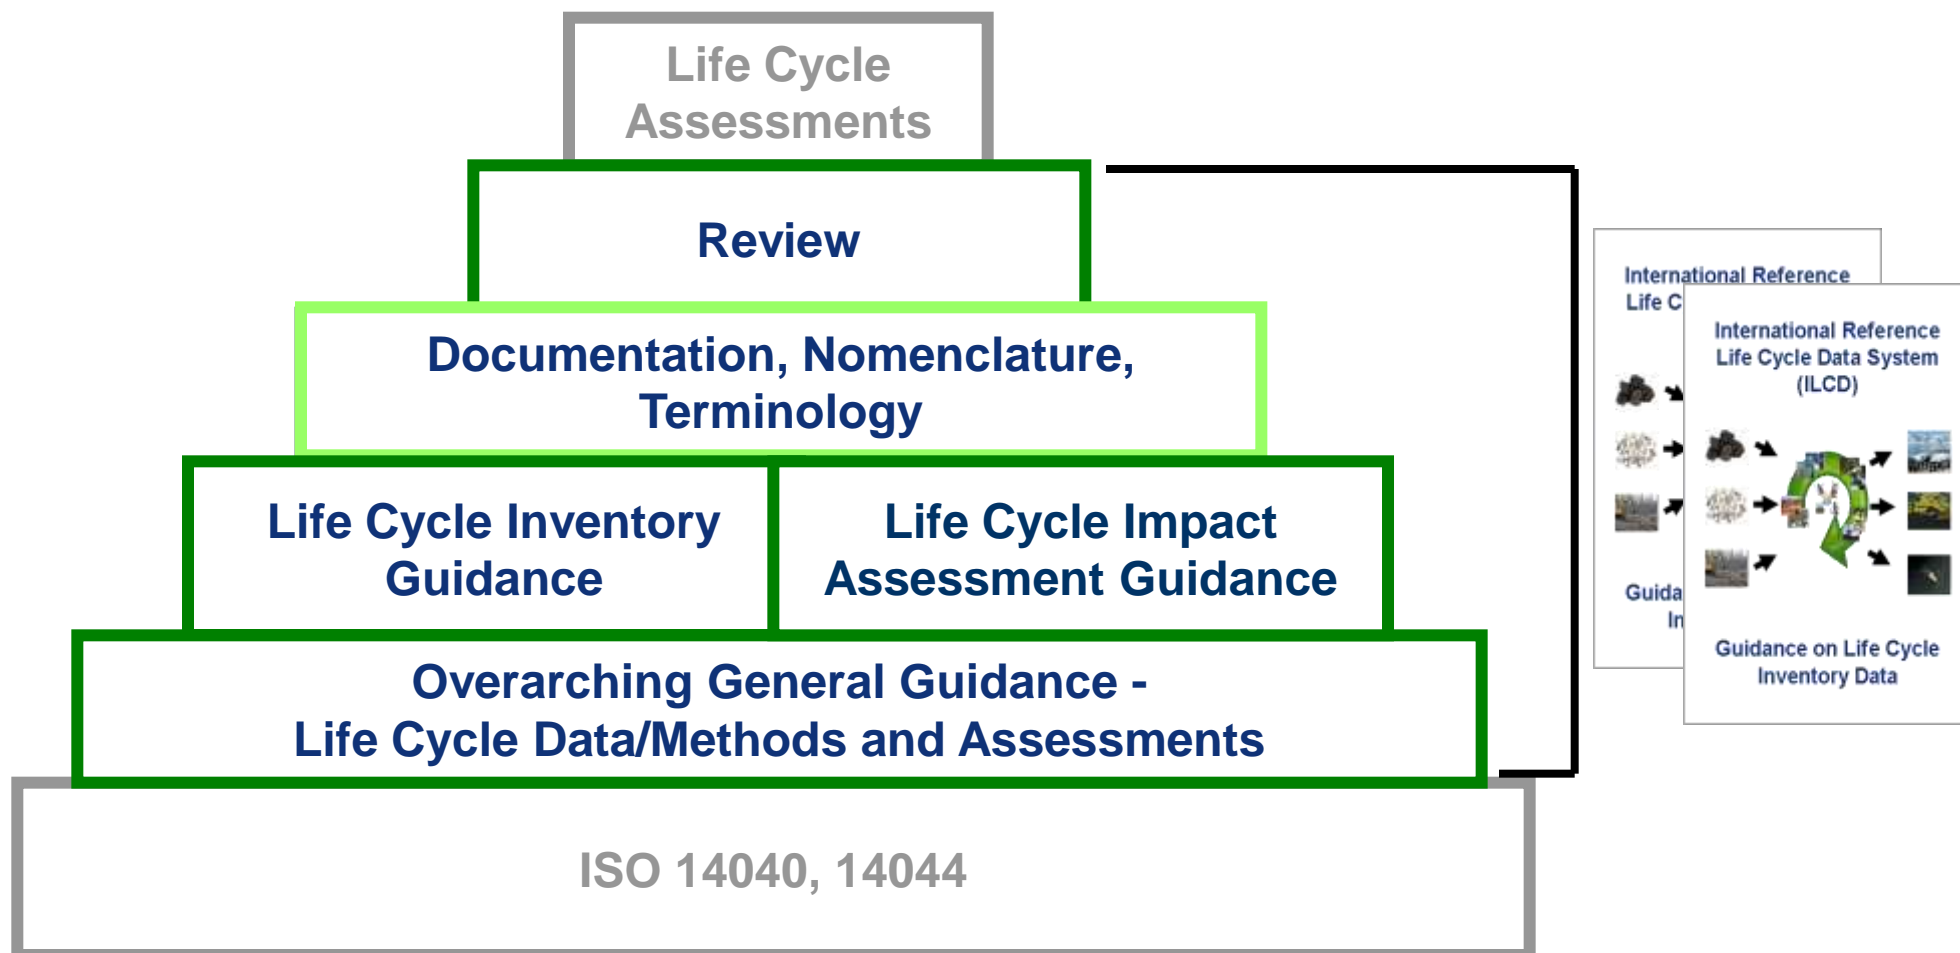

Reduce costs/complexity of exchange, review, ...

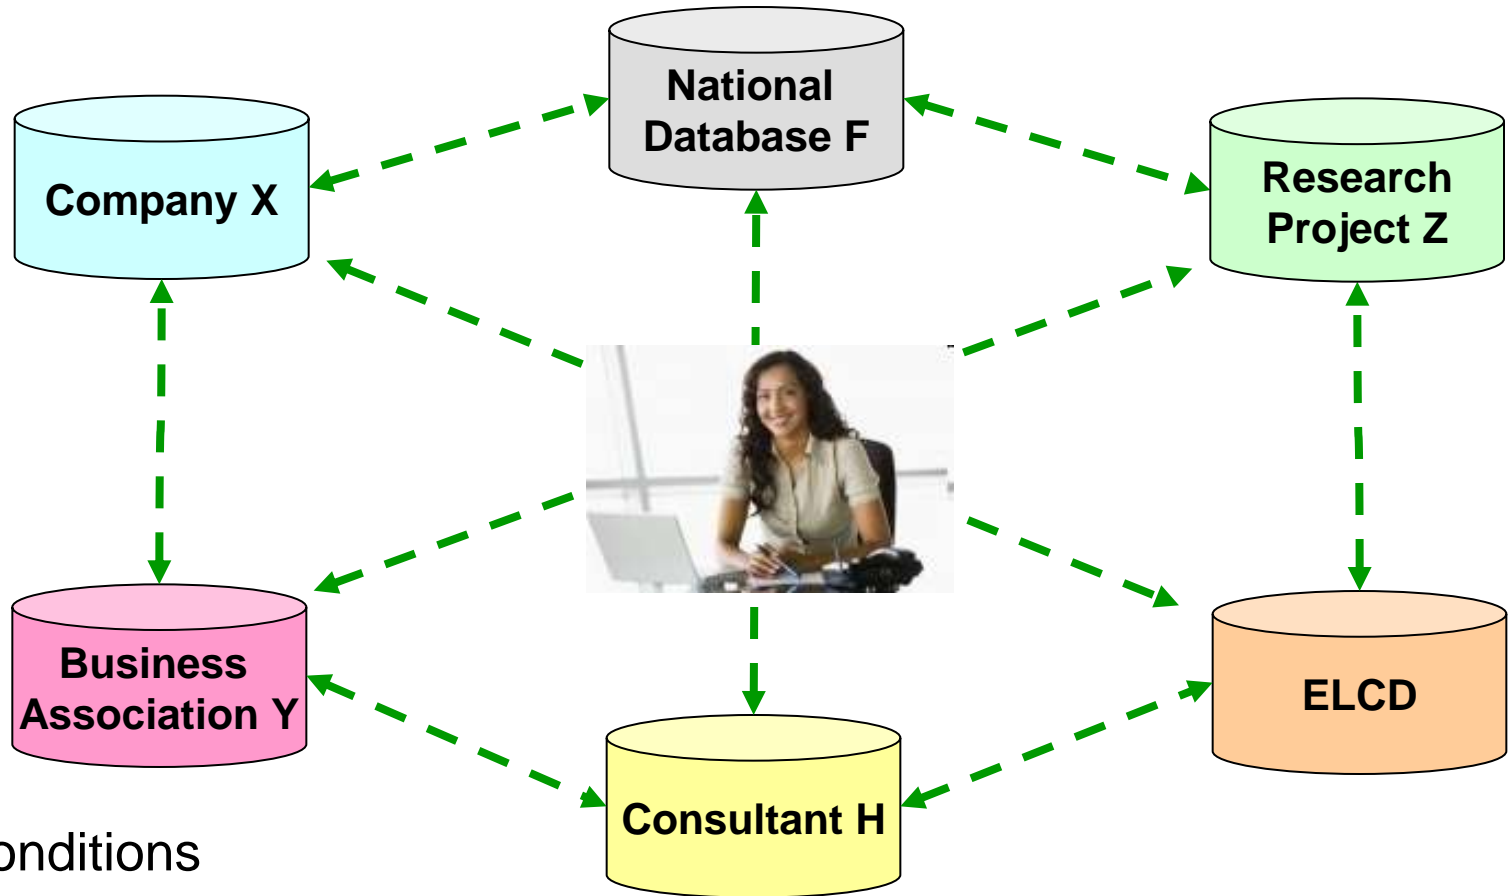

Education and training

Awareness raising of economic/environmental benefits

- **Funding, including beyond EU**
- **Research and Technological Development projects**
- **Trainees**
- **Extensive international interactions**
- **Expertise at EU level**
- **Deliverables that can be widely adopted/adapted**

International Reference Life Cycle Data System (ILCD) Handbook

- Decentralised
- Own terms and conditions
- Data registry
- Entry Level & Handbook Compliant Data
- Data editor, compliance tools, templates, ...

Adopt and adapt ILCD to meet your national and private needs

or, adapt existing methods where you feel helpful

Join ILCD Data Network to provide as well as use data

Contribute to testing and feedback

Support revisions of ILCD through your experiences

Interact to further develop specific conventions and methods

Support other efforts for further consensus and development
